## CAREER OBJECTIVE

As a Computer Application graduate, I am eager to start my career in software development. I aim to apply my skills in programming, problem-solving, and web development and responsive web design to contribute to the success of the organization. I am excited to learn and grow professionally while taking on new challenges in the tech industry.

---

## PROJECTS

### Desserts Billing System

- The Desserts Billing System is a responsive web application developed using React.js for managing dessert orders and generating accurate bills for customers. Automatically calculate the total price based on selected items and their quantities.
- Display a list of desserts with images, names, prices, and descriptions. Option to categorize desserts (e.g., cakes, pastries, ice creams).
- **Technologies Used : ReactJs**

### Integrated Hospital Management Website

- Developed a Hospital Management Website using HTML, CSS, and Bootstrap for patient and staff management. Ensured responsive design for optimal user experience across devices
  - Implemented features like appointment scheduling, patient records, and hospital services.
  - **Technologies Used : HTML, CSS, Bootstrap**
- 

## EDUCATION

- **BCA-Bachelor of Computer Applications** Sri Lakshmi College Of Arts And Science, Bangaram (Annamalai University) Kallakurichi **Percentage: 80%**
  - **12th-Computer Science** Government Boys Higher Secondary School Kallakurichi - **Percentage: 78%** 2020 - 2021
- 

## TECHNICAL SKILLS

- **Languages:** JavaScript, HTML5, CSS3.
  - **Frameworks / Libraries:** Bootstrap, React JS.
  - **Databases:** MySQL.
  - **Soft Skills:** Good Communication, Problem-Solving, Logical Thinking, Responsive designer
- 

## CERTIFICATIONS

- Completed 6-Month hands-on training in full-stack web development, including front-end and back-end technologies at Code99 IT Academy. Aug 2024 - Feb 2025
